

9th IAU and UCL Urology Conference

September 25-27 London 2020

On behalf of the IAU and University College London, we would like to present the latest clinical advances & research in urolithiasis and the management of urinary tract stones. Oral, poster & video abstracts will be invited and welcomed.

The conference provides an excellent opportunity to understand and learn about worldwide practices, make new acquaintances and to collaborate in research projects.

It is our great honor to have you as our guest. We look forward to meeting you at the event.

See you in London!

DELIVERING:

- Live surgery
- Debating hot topics
- Managing challenging cases
- Trends of minimally invasive stone surgery
- Miniaturisation of PCNL
- Seminars to improve presentation skills
- Learning how to get your work published
- State of the art UCL Urology lectures on Prostate, Bladder & Renal cancers (Robotic & Focal Treatments, MRI), Reconstruction, Andrology, BPH...
